FOR IMMEDIATE RELEASE

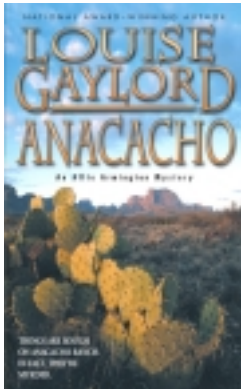

Anacacho

Nothing's Sure but Death in Texas!

Trade Paperback Edition

An Allie Armington Mystery by National Award-Winning Author Louise Gaylord,
released for the first time in trade paperback

BEVERLY HILLS - Allie Armington is a bright, successful and self-reliant young Texas attorney coming up to the top of her game. But that independent streak just might be the death of her. Of course, she doesn't admit it until she's about thigh-deep in a conspiracy involving cattle, oil and drugs... and the man she once thought she was going to marry until he ended up with her best friend.

Anacacho smiles at you, gently beckons, then draws you in. And it's so subtle you don't even realize you're hooked until you try to put it down. It has terrific characters but the problem is, you never know which ones you can trust.

Originally released in hardcover, this award-winning book won the National Benjamin Franklin Award for Best Mystery/Suspense. *Anacacho* has won the hearts and minds of Allie Armington fans across the country. This finely crafted mystery starts with a bang and rapidly evolves into a page-turner and nail-biter. Right from the start, Allie finds herself in the thick of things.

Louise Gaylord is the author of the Allie Armington Mystery Series. The second book in the series, *Xs*, won first place in USABookNews.com's Best Books Awards and was a finalist in both the ForeWord Book of the Year Awards and the Independent Publisher Awards. Louise divides her time between Houston, Texas; Santa Barbara, California; and Old Forge, New York.
